

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Diseased kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite. I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedily a way to regain my health. Having heard of Wine of Cardui, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

SAVERS.

The above heading was in a well known in the columns of the Signal, but that was a time when good men and women seemed to take a greater interest, and worked more after the welfare of the neighborhood. Then we had Sunday school from six to nine months out of the year and Church services were frequent occurrences at the school house, which was built for that purpose as well as school, but now we have no Sunday school or Church service either. From year to year the weeds grow around the door and the old rose lush blooms at the northeast window unnoticed until the merry shout of the school boys announces that the time for public school has come. Then we went to mullen stalk, weed, and roset and all. It is only with an effort that the great scymore in the lane with-stands them.

Mr. Sam Sayers received a painful, though not serious injury last week in being caught by the wheel of a loaded wagon.—Walter Owens, who has been spending the winter in the South, has recently returned home.—The sawmill of Hamm & Sayers is doing very little at present.—Most people are through with their corn and blackberry picking is the order of the day.—Miss Altie Owens left Sunday to begin school near Pongo.—The schools in this immediate vicinity have not begun.—Quite a lot of interest is being manifested in the singing contest, to be held near here on the fifth Sunday in this month. The Union class met Saturday night at the home of Mr. Ben Albright for the purpose of practicing and on Sunday the Freedom class met and sang most of the day. There will be more than a dozen classes here and a big time is expected. Come one! come all! and enjoy the heavenly music, as well as an interesting program, consisting of speeches, recitations, etc. Only five miles west of Mt. Vernon, two and a half miles south of Brookhead. No trouble to find the way.—Plenty of rain and good prospects for corn.—I suppose, as I am a new correspondent, the other correspondents will want to know what I am, so they will know how to "pitch into me" should I say anything that doesn't suit them. I am a hot-headed long-haired republican, an old-fashioned hard-shelled Baptist, and a strong believer in taking everyone who says we don't need better roads in Rockcastle, by the heels and bending their spinal column around the first friendly tree we come too. Do you like me?—E. J. Hamm, who is in business at Lebanon, is spending a few days with homefolks.—I will be very grateful to the people of the neighborhood for any news of interest they may report to me; if they happen to know who "me" is; if not come around and I will tell you.—Perhaps next week I will be able to give you more news and less foolishness. With a good wish for the Signal and all its readers.

HOT SPRING, N. C.

The town (H. S.) has grown up here since the war and as I before stated contains some handsome buildings. The Springs Hotel and other attractions, the park, fine walks and beautiful shades are among the things on earth that reach high up into the magnificent. Board there is \$16 per week or \$4 per day for transients. Some other good houses in the town run by very accommodating proprietors at \$5 per week, or \$1 per day for transients, and a few boarding houses at cheaper rates. All, so far as I am informed, furnish plenty of good wholesome fare.

No liquors are sold except at the Springs. They have a monopoly of that business. They have six churches including the colored Methodist, Masonic and K. of P. and I O O F. Only one Macabee and it is a lair.

They have a bank and retail stores of all sorts, and one drug store, where they make you pay dearly for coming here sick. Everything is a shade higher here than in Kentucky, except religion and politics. They don't seem to reach Kentucky extremes. Yes, they have a good school, but the free school system, is inferior to ours. The land is steep, poor and contains many gullies except the little valleys where the creeks and the creek and they are like Pat's taters, "very few and small in the hill."

Three small battles were fought near here in the civil war. This county, Madison, afforded a great refuge for deserters and bushwhackers. Such as this don't interest your readers in this day and time though.

The rain continues to pour down, but this year is in the wet column any way. All years ending in 1, 3, 4, 7, 9, are most commonly too dry for good corn crops, the other five have plenty of rain, with the 5's in the lead. Watch this, you who are blessed to live and be convinced of the truth. Will some well informed reader of the Signal explain the difference in "truth and fact." There is a difference, tho' we use which for tother.

The mornings here are very cool, the days warm or hot, the nights generally pleasant. As to the curative qualities of the water, it is splendid for rheumatism, so invalids testify, good for stomach and kidney ailments, and Dr. Peck's bad boy is high up in his profession, with charges, I think, very reasonable. He visits, examines and prescribes for \$2 per week and will come six times in seven days, if I call him.

There is a man confined in the Ashville jail for one of the most brutal murders (if reports be true) of a young woman, that we ever read or heard of in the annals of crime. The accused has relatives in Rockcastle. His trial will come off in August.

The laws are better enforced here than in Kentucky, though they are no better in letter.—Some of the Masonic brethren visit me every day and talk religion in a good old Methodist or Baptist way. Only two Campbellites, Bro. Gentry and wife, here.

My side, stomach, strength, action and feet and legs have improved, but the improvement is necessarily slow, for my descent has been long and gradual. One great proof of the betterment of feet and legs, is they have life enough now to hurt. I sleep and eat enough and drink lots of water. Everything I eat or drink tastes well, though I eat but few articles of diet—corn and loaf bread, eggs, butter, oat meal, hot water and good baughnaugh cloughber. Dr. ut off meats, acids, and coffee. He is urging me to try the baths, says I have plenty of strength to take me every other day. These baths are weakening and make one sore, so people say.

FOLEY'S HONEY AND TAR

The system of collecting fares in the City of Mexico differs radically from that employed in this country, as a ship is handed by the conductor to each passenger as a fare receipt. This receipt shows the date, amount of fare and direction of trip, bears a serial number, and must be retained by the passenger until the end of his ride as proof that he has paid his fare. The company has 17 different rates of fare, varying from 3 cents to 30 cents (Mexican), and being divided between first and second class. On the city lines there are no second-class cars or fares, the city rate being 6 cents, which at the present rate of exchange amounts to a little less than 3 cents gold. The colors of the paper upon which the tickets are printed are changed each month, and this fact, together with the practice of varying the progressive enumeration of the tickets among the 17 different rates of fare, makes counterfeiting practically impossible. No transfers are given. As an incentive to each passenger to retain his fare receipt the company has just announced the establishment of a lottery, the tickets of which will be the fare receipts issued by the conductors. Lotteries, as is well known, are exceedingly popular in Mexico, as in all other Latin countries, and in this case the sanction of the Government has been secured. The object of having the passenger retain his receipt is to "keep tabs" on the conductor. The highest prize in the lottery is \$1,000.

Elihu Root's law practice is said to be worth \$1,000 a day. When his creditors begin to press he might be given a week's vacation from the Cabinet so that he can earn a year's pay.—[Detroit Free Press.
